

Graves Park 'ditch & bank' features

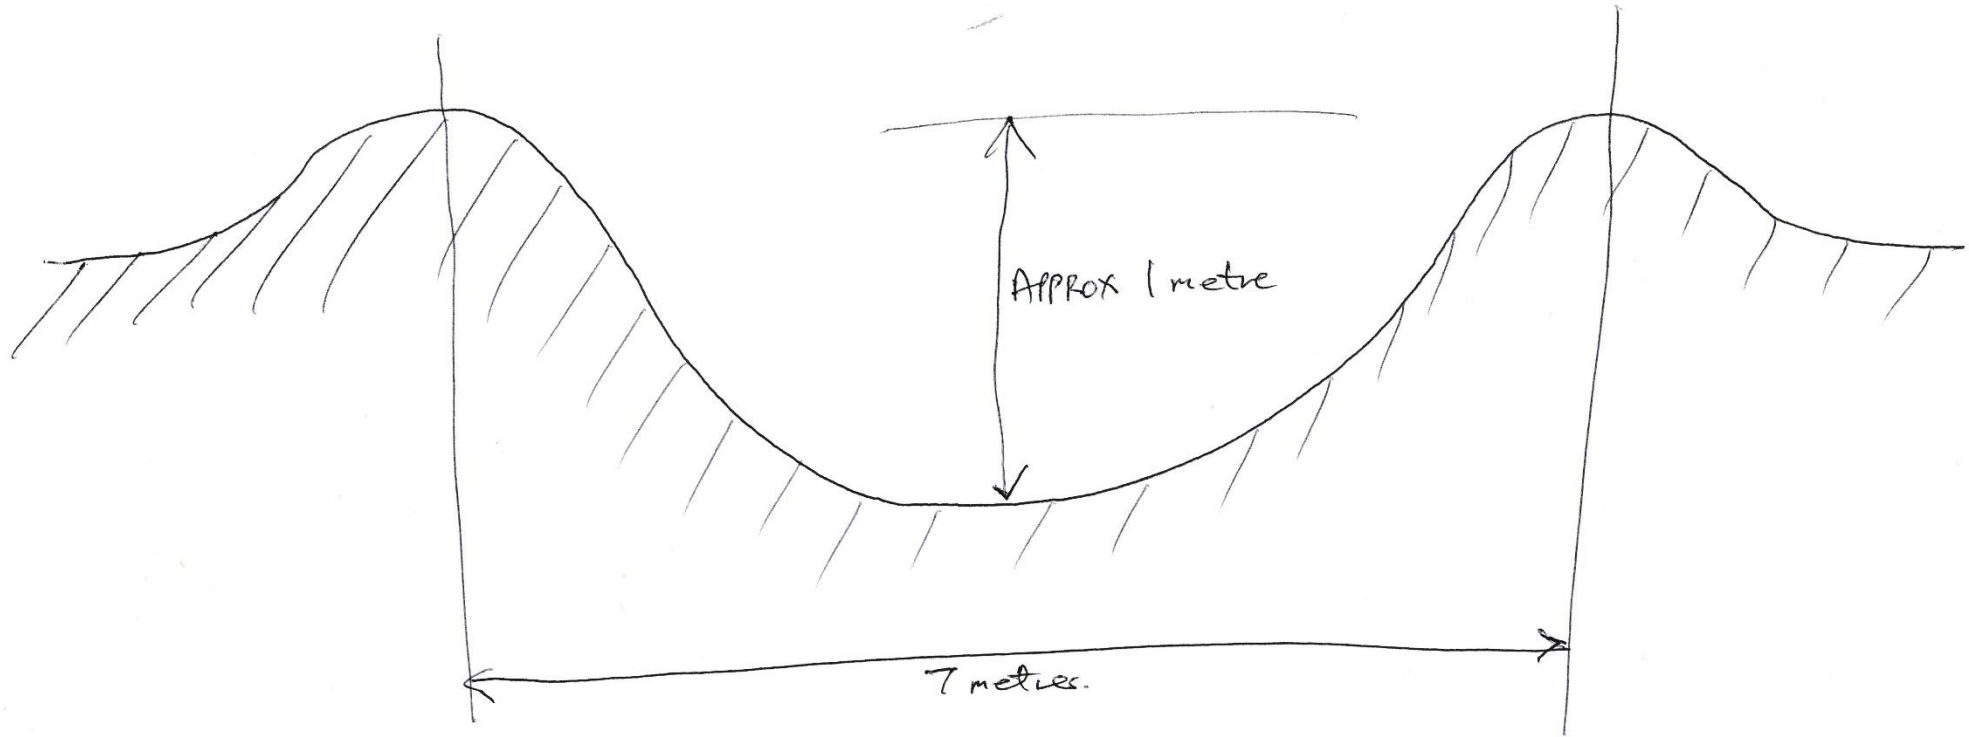

Tony Spillane
8th July 2019

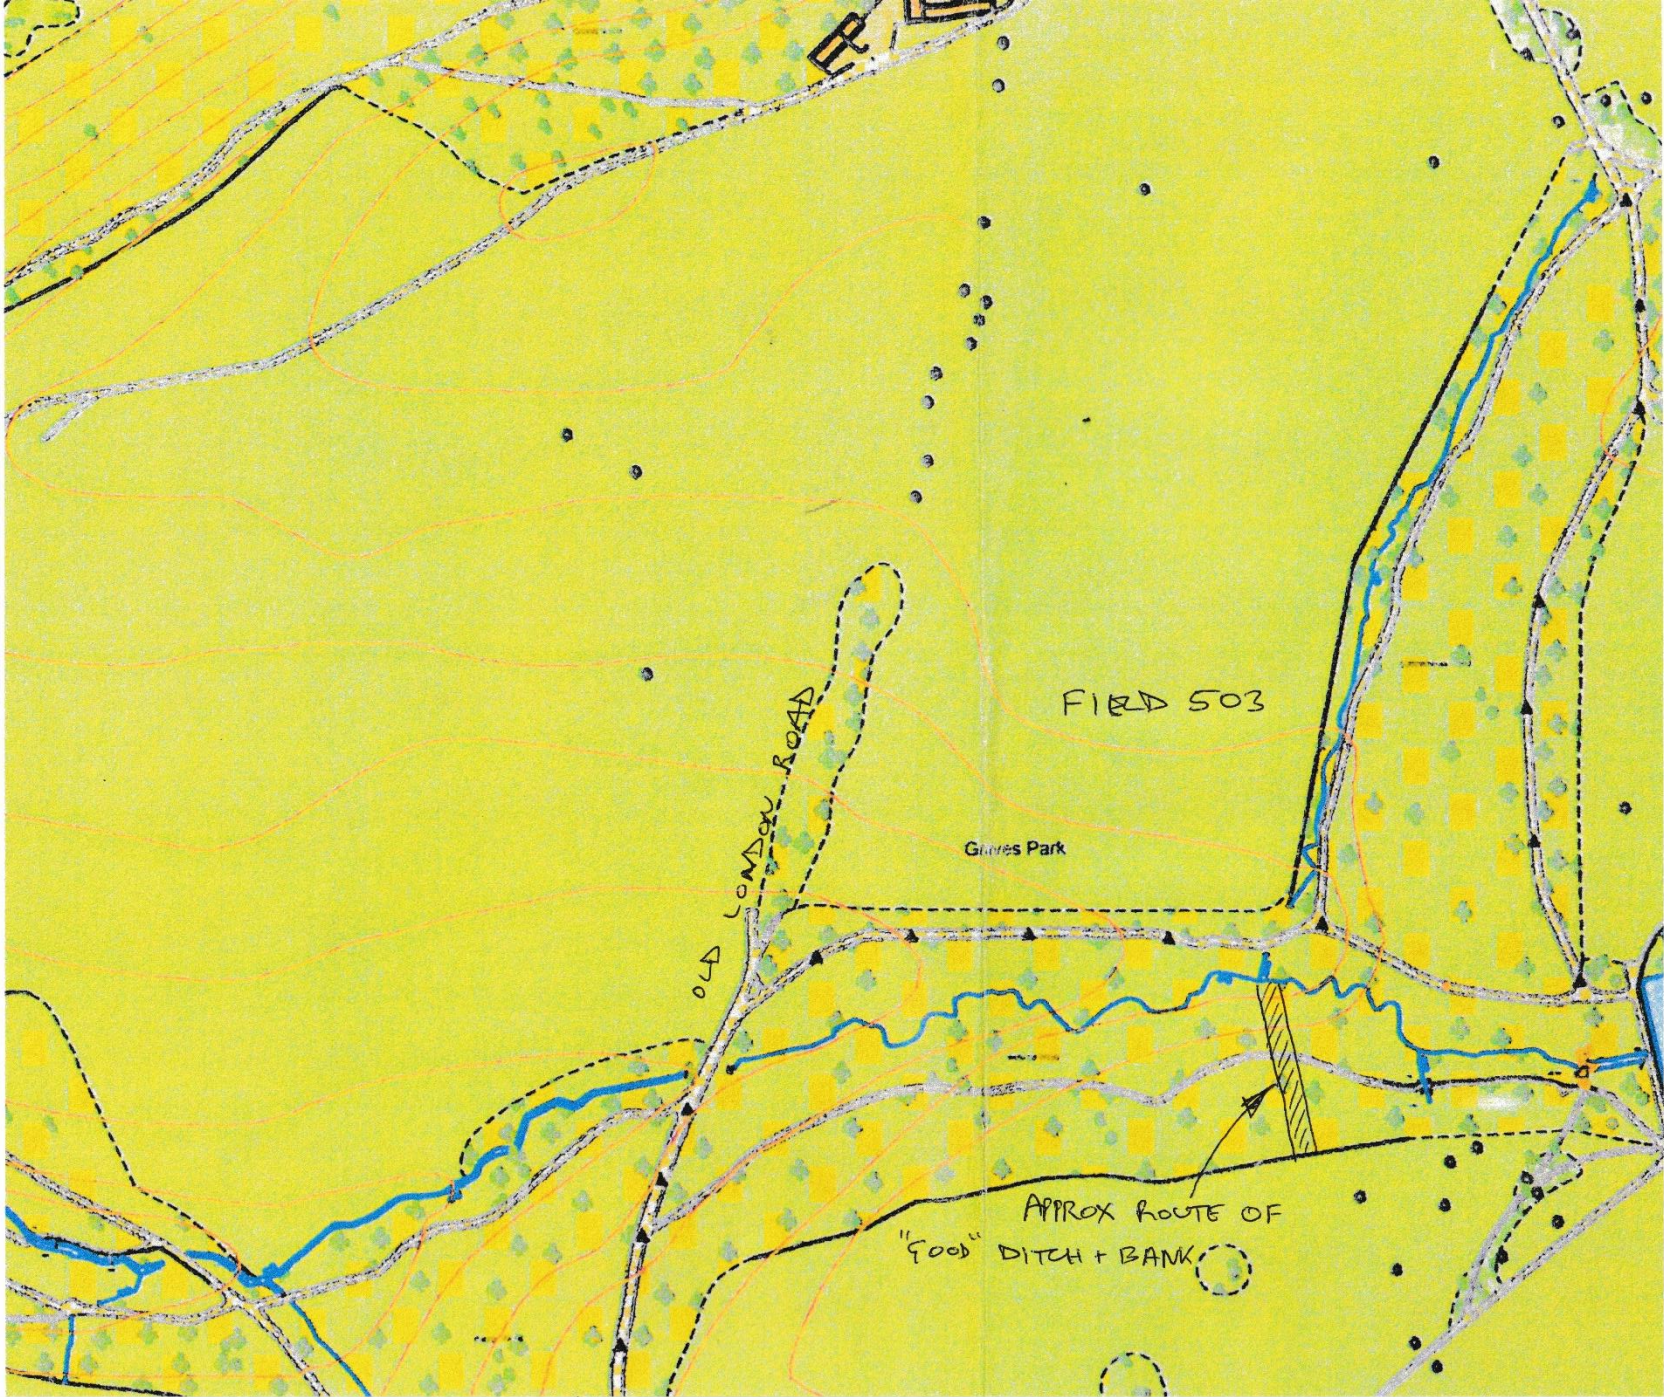

Ditch & bank feature

- This ditch & bank is 7 metres from the centre of one bank to the centre of the opposite bank, and approx. 1.0 metre high from centre of the ditch to the centre of each bank.
- It is located on the south side of the Waterfall Woods, and runs from the junction of two streams to the top of the slope.
- The east west footpath bisects the ditch & bank feature approx. half way along its length (the readily visible part of the ditch & bank feature is approx 150 metres long)
- There are other ditch & bank features that run parallel to this one, but they are less distinct. They tend to be further west, one being quite close by to this one.

'Good' DITCH AND BANK DIMENSIONS - SOUTHERN SIDE OF WATERFALL WOODS.
